

Genesis Troy Torrecampo

Clever Web Developer with a strong foundation in backend development, specializing in REST API design, database management (MySQL, MongoDB, DynamoDB), and server-side debugging. Proficient in Node.js, TypeScript, PHP, and frameworks like ExpressJS, HonoJS, Laravel, and CakePHP. Possesses experience with version control (Git) and basic DevOps concepts. Eager to leverage backend expertise and problem-solving skills to contribute to innovative projects and drive success at your company.

WORK EXPERIENCE

Web Developer | Backend

Forty Degrees Celsius Inc.

Cebu City, Philippines

04/2024 – Present

- Ensured the security and protection of API endpoints.
- Improved database performance by optimizing loaded queries.
- Debugged real-time applications including WebRTC, WebSockets, and Socket.IO.
- Managed cloud services on AWS and GCP.
- Integrated third-party APIs. Utilized Linux knowledge, including SSH, for PHP applications.
